Admission Guide

Qualitative Diplomas Programs

2022

VISION Œ LÍÐJ 2 30 INDOLED INDOLED

2022

Praise be to Allah, Lord of the Worlds, and peace be upon our Prophet Muhammad, his family and all his companions, and those who followed his path until the Day of Judgment.

Deanship of Admission and Registration is the main gate through which students can join the university for the undergraduate stage, and their academic journey starts. The Deanship undertakes the task of providing all information about the university to high school students, while they are studying, so that they are fully aware of the university before enrolling in its programs.

Based on the responsibility of the Deanship, this simplified guide has been prepared to be best help students in the process of submitting an application to the university through the electronic system. This guide includes all the information of interest to the student, starting with announcing the availability of the electronic portal to submit an application for admission to the university. The guide ends with the electronic admission procedures in the distance education programs, in addition to introducing the student to the study system, the available disciplines, the branches and courses that the student studies in the distance education programs, and the mechanism of postponement and deregistration from the university.

There is comprehensive information that students wishing to join the university can view through the website of the Deanship of Admission and Registration at the following URL (admission.kau.edu.sa).

Deanship of Admission and Registration hopes that this guide fulfills the aspirations of male and female students wishing to enroll in the professional diploma programs at the university, and that its information meets their wishes and inquiries.

In conclusion, we would like to extend our sincere congratulations to our male and female students and welcome them to their university, King Abdul-Aziz University, praying to God Almighty to help them achieve their ambitions and hopes.

Introduction

Available Programs of Qualitative Diplomas

Admission General Conditions

Admission Mechanism of KAU

Study Plan

Appendices

Introduction

KAU considered multiple admission opportunities for male and female students of qualitative diploma programs. The programs provide practical educational services to the community, and a wide range of specialized professional programs coping up with the Saudi Vision 2030, through which the university provides what is commensurate with the needs of the labor market and the needs of students at the same time.

Targeted Class

Employees and holders of General Certificate of Secondary Education and all equivalent certificates in approved in Saudi Arabia obtained from Saudi Arabia and abroad.

Qualitative Diplomas

1 Public Relations Diploma

2 Computer Networks Diploma

3 Professional Sales Diploma

4 GIS And Maps Diploma

5 English Language Diploma

6 Culinary Arts Diploma

7 Sterilization Diploma

8 Insurance Diploma

9 Professional Visual Communication Diploma

How is the program selected?

Dear applicant, you will be shown in the admission program all the programs available at King Abdul-Aziz University.

You have to choose the desires and arrange them in order of priority, because sorting the desires will start with your first desire to make sure that they can be achieved.

Available Programs and Tuition Fees

Available Specializations	Study Campus	Study Duration
1. Public Relations Diploma		(2) years
2. Computer Networks Diploma		(2) years and summer training
3. Professional Sales Diploma		(1) year
4. GIS And Maps Diploma		(2) years
5. English Language Diploma	Main Branch (Al-Sulaimaniyah)	(2) years
6. Culinary Arts Diploma		(2) years
7. Sterilization Diploma		(2) years and summer training
8. Insurance Diploma		(3) years
9. Professional Visual Communication Diploma		(1) year

General Conditions of Application

The applicant s average in high school is to be %1. at least.

the tuition fees are to be paid on time according to the dates announced on the website of the Deanship of Admission and Registration.

All applicants compete for the specified seats according to the admission criteria, as a comparison among themselves.

The data entered electronically must be identical to the original attached documents.

The student applying for (sterilization, computer networks, or medical secretarial) programs must have a high school certificate, scientific discipline.

Qualitative Programs

Insurance Diploma:

The program is accredited by Chartered Insurance Institute "CII" in Britain. The student can obtain an additional certificate from the CII upon graduating and applying for the institute exam. The program aims to qualify students to work in the insurance sector in general in a number of service sectors and commercial activities. The program is taught in English and includes an intensive English language course in the first year to prepare the graduate theoretically and practically to participate in the labor market.

Sterilization Diploma:

The program is accredited by the Saudi Commission for Health Specialties and classified in the Ministry of Human Resources and Social Development. The diploma qualifies the graduates of the program to pass the examination of the Commission for Health Specialties to obtain a classification (Sterilization Technician). The program is taught in English and includes an intensive English language course in the first year to prepare the graduate theoretically and practically to participate in the labor market.

Professional Visual Communication Diploma:

The program gives students professional certificates in graphic drawing. It is offered in Arabic language and characterized by preparing a graduate capable of working in various fields of computer graphic and digital technologies by applying the latest international standards in this field and developing the student's creativity and innovation skills in the design of publications and multimedia.

Public Relations Diploma:

This program aims to prepare and qualify students in the field of public relations by developing the students' intellectual and practical skills. The entities that attract graduates are institutions, commercial companies, and government agencies that rely on public relations.

Computer Networks Diploma:

The program aims to prepare and qualify students in the field of computer networks by developing their practical and applied skills. The entities attracting graduates include institutions and companies working in the field of computer networks.

Professional Sales Diploma:

The program aims to prepare and qualify students and provide them with the skills and knowledge necessary for the labor market in the field of sales. The entities attracting graduates include the retail sector, local and international private companies.

Geographical Information Systems «GIS» & Maps Diploma:

The program aims to prepare and qualify students in the field of geographic information systems by developing practical and applied skills for students. The entities attracting graduates include institutions and companies working in the field of geographic information.

English Language Diploma:

The program aims to prepare and qualify students to speak fluent English by developing students' theoretical skills. The entities attracting graduates include institutions and companies working in the field of translation.

Culinary Arts Diploma:

The program aims to prepare and qualify students in the culinary field for professionals by developing practical and applied skills for students. The entities attracting graduates include institutions and companies working in the culinary field.

General Conditions of Admission

The documents required to be uploaded on the university's website for application:

Origin of high school certificate.

Origin of ID card.

Colored personal photos, size 4 x 6 cm, with a white background (with hijab for female students).

The original approval of the employer (for the military sector only).

A student with special needs must attach a health certificate from the needs center indicating the type of disability.

The applicant who obtains conditional admission shall have to bring the documents requested in the review form.

2022

Q

Admission Mechanism of KAU

Application Stage (Online)

- Applying within the stated period via the admission portal on the main website of the university www. kau.edu.sa
- Selecting a "new registration" and then filling in the initial data to complete the process of opening the file (this step is opening a file not submitting an application).
- The program will send you the password that you entered on your mobile phone to keep. Please never disclose it to others.
- The applicant must fill in all academic personal data.
- The applicant must arrange the admission wishes in order of priority.
- The applicant must clearly submit the original required documents (ID + high school certificate + personal photo .. etc.)

2 Second Stage Application Confirmation (Online) Student's Liability

Application Confirmation (Online)

- Application Confirmation is very important to complete the admission procedures.
- Confirmation of the request will not take place until after all the required data from the student is entered, and the data cannot be modified after confirming the request.
- Failure to confirm the application within the specified period means that the application for admission will be cancelled.
- The applicant must follow up his application through the follow-up page in the (Professional Admission) program and make sure that all stages are completed up to the stage of issuing the Academic number and the university card.

Final Admission and Issuing the University Card

- The applicant's acceptance is approved after matching his original documents and verifying the accuracy of his data. The electronic system issues an order to grant him a university card when meeting the admission requirements and according to the vacant seats.
- The university has the right to cancel the student's admission if it is found that he has not met the admission requirements even after the university card is issued.

Announcing Results, Ensuring Wishes and Payment • After announcing the sorting results and nominating you for one of the university seats, you have to log immediately in the admission

- nominating you for one of the university seats, you have to log immediately in the admission page to complete the procedures by approving the desire for which you were nominated during the systematic period.
- The admission program will allocate a limited time for you to confirm your acceptance of the desire and pay the tuition fees in order to reserve your academic seat and obtain the university number, and give you a specific period of time for that, otherwise your right to the seat will be forfeited.
- Failure to confirm the desire and pay the tuition fees for which you were nominated on time will forfeit your right to admission to the university

5 Fifth Stage

Final Admission and Issuing

the University Card

University': Liability

Wishes and Payment

Student's Liability

Application Verification

 The student's personal and academic data and attached documents (original and colored) are verified

General Frame of Qualitative Diploma Program

The applicant will be accepted into one of the specific programs, according to the vacant seats and the specific criteria for each program.

Objectives of Qualitative Programs

- Providing programs keeping pace with the Saudi Vision 2030 in line with labor market needs.
- Contributing to the development of human capabilities in Saudi Arabia with high quality educational programs
- Achieving the optimal investment of expertise and exploiting the electronic educational infrastructure at KAU to play a pivotal role in building the Saudi human being and achieving his readiness to serve his community.
- Providing learners with the 21st century skills and the technical competencies to support them in the labor market
- Giving students the opportunity to discover their scientific ability in the university environment.

Study System of Qualitative Programs

- Study is a full-type regular basis
- The student studies the levels assigned according to the program plan.
- The schedule is considered fixed for the student throughout the period of his studies in the diploma
- The registration process for courses is done automatically by the

 Deanship of Admission and Registration for the study plan for the diploma program
- The student is denied from entering the final exam if the percentage of his absence without an acceptable excuse exceeds 25% of the lectures and lessons specified for each course during the semester. A grade of denied (DN) is recorded in the transcript.
- The student is not entitled to transfer from one track to another in the diploma programs.
