Research Details :

Research Title : *Histological changes of rat tongue papillae due to chromium toxicity and the protective role of vita*
دراسة هستولوجية على التغيرات في الحلمات اللسانية عند الفئران الناتجة عن التسمم بالكروم ومدى التأثير

Descriptipn : Chromium is an essential trace element whose physiological role is related primarily to the maintenance of normal glucose tolerance, because it serves as a cofactor for the peripheral action of insulin.

Research Type : Thesis

Added Date : Thursday, November 08, 2007
